

NAHEED NENSHI MAYOR, CITY OF CALGARY

Better, stronger communities are only possible when Calgary's citizens become involved in projects such as the annual United Way Campaign. Your support of United Way means Calgarians in vulnerable circumstances can achieve a better quality of life and a newfound hope for the future. Moreover, as we all become more involved, we enrich our own lives and communities.

The City of Calgary appreciates your efforts and your support of United Way. The continued cooperation between corporate Calgary, government, the non-profit sector, and Calgarians at large is an example of how we can achieve great things together.
